**WAYACHTS: WAKE 46 RESTYLED AT THE GENOA BOAT SHOW 2009**

**Wayachts will present at the next genoa Boat Show the 2010 version of the Wake 46 with interesting stylistic news on T-Top and swimming platform.**

The platform is longer than 60 cm reaching now the surface of 3,5 sqm and the **roll bar** now is lined forward in order to give a more sporty look. The coverage of the cockpit has also changed. Now there is a T-Top made by a unique piece of darkened lexan supported by two parallel stainless steel bars to grant the maximum shadow on the pilot station and the cockpit; but, for the sun lovers, the wonderful chaise longue on the open stern and the wide sunpad at bow will remain.
